

The residents of Portsmouth, Norfolk and Las Plamas are raising money for the installation of street lights in our neighborhood. The City of Houston's study indicates that nine lights are required. The total cost is \$_____. Residents have donated \$_____ leaving a balance of \$_____.

Street lights will benefit the residents and the businesses in the area by eliminating dark areas where theives, vandals and other undesirables can hide. Also, aesthetically, street lights convey a sense of community pride.

We are requesting that the merchants and business people of the Greenway Plaza area and the 4000 and 4100 blocks of Richmond and the Southwest Freeway assist us in reaching our goal. Twelve Oaks Hospital has generously donated \$250.00 to the street light project.

In the unlikely event that we fail to raise the needed funds, all contributions will be refunded. Your donation to the street light program is tax deductible, as we are a chartered nonprofit corporation with the State of Texas.

Checks should be made payable to Wesleyan Plaza Civic Association and mailed to 4010 Portsmouth, Houston, Texas 77027.

If you have questions or wish to have your check picked up, please call Melinda Moses at 871-1253 (res.) or 963-0500 (off.)
